PROFILE

Motivated web developer with experience in HTML, CSS, JavaScript, React, Node.js, MongoDB, and Bootstrap. Skilled in responsive design, cross-browser compatibility, and problem-solving. Strong collaborator, eager to contribute to a dynamic team and create high-quality web applications.

WORK EXPERIENCE

INTERN

UNO MINDA at Upparapalli

01/2023 to 02/2023

Gained hands-on experience in configuring systems according to organizational standards, while also developing an understanding of company operations. Experienced in adhering to best practices for system configuration and documentation.

PROJECTS

Zen Class Clone

<https://zen-class-six.vercel.app/>

- Developed Zen Class, an interactive web app using React, Node.js, and MongoDB, featuring user authentication and dashboards for managing leave applications and queries.

Movie Booking App

<https://movie-app-eta-murex.vercel.app>

- This is the frontend for the Movie Booking Application, built using React and React Bootstrap. It provides a user-friendly interface for users to register, log in, view movies, and make bookings..

Shopping Cart

<https://ecommerce-sable-rho-90.vercel.app>

- Developed Shopping Cart, a React-based app where users can browse products, add to their cart, and book with delivery details, featuring search, category filtering, and a responsive design.

Health Record Manager

<https://health-record-manager.vercel.app/>

- Health Record Manager is a web app designed to streamline patient health record management, featuring a React.js frontend and Node.js backend. It uses JWT for secure authentication and MongoDB for efficient data storage.

COURSES AND CERTIFICATIONS

Guvi Geek Network

8/2023 - 12/2023

- Completed a Full Stack Development course at GUVI, mastering the MERN (MongoDB, Express.js, React.js, Node.js) stack for dynamic web application development.
- Developed practical skills in frontend and backend development, applying learned concepts in real-world projects to build robust web applications.
